Wer einen herausragenden Trompeter wie Thomas Siffling als Bandleader engagiert, verfolgt ambitionierte Ziele. Die SAP Big Band [...] hat sich unter der Leitung des Maestros seit 2000 zu einer der bemerkenswertesten Big Bands in Deutschland entwickelt. Bestes Beispiel für die erstaunliche Klangvielfalt der Band ist die aktuelle CD. [...] "Ich bin stolz auf Euch", schrieb Thomas Siffling in Facebook seinen Bandmitgliedern. Das darf er nach diesen gelungenen Aufnahmen auch sein. (*Jazzpodium 10/2011)*

20 years of corporate big band jazz, delivered in the spirit of friendship – this is no small feat. I am proud of what the band has achieved and wish them every success for what lies ahead.

Some days ago I had the honor to open the 22nd Employee Concert of the SAP Big Band. They started their journey in 1996, some founding members are still active, these days roughly 50% of the band members are SAP employees. AND: They really perform on a very high level, the concert was amazing, several hundred visitors had a great evening! For an HR person like me this is a dream coming true: Colleagues come together in their free time, have fun, and are real ambassadors for SAP. Employee Retention and Employer Branding at its best! Our company can be so proud that this is part of our culture!!!
